Lantz Indergard
Lisbon Valley Mining Company LLC
755 North Main Street, Suite B
Moab, Utah 84532

Dear Mr. Indergard:

Your Plan of Operations Modification to backfill the Penny Pit was received in this office on November 14, 2012. Consistent with the surface management regulations at 43 CFR 3809.411(a), the BLM has reviewed the Plan Modification to determine if it meets the content requirements at 43 CFR 3809.401(b). Based on our review, the following information is required in order for the Plan of Operations Modification to be complete:

1. Provide a map showing the location of the Penny Pit relative to the Centennial Pit and include the location of the pit pool.
2. Provide the depth of the pit pool through cross-section and identify the limits of the pool on a map.
3. Provide a schematic overview and cross-section of the proposed backfill design.
4. Provide a geologic profile of the pit area to be backfilled.
5. Characterization of the pit pool water. What is the chemistry of the pit pool water pH; conductivity; total and dissolved metals?
6. Provide any water modeling analyses and water chemistry data you have that you feel supports pit backfilling.
7. Describe whether or not you propose to include acid generating waste in the backfill.
8. When do you intend to begin backfilling the pit and when do you expect the pit backfilling to be complete.

9. Provide a copy of the leachate analyses used to draft the EIS. We do not have this in our records and will need this information as part of our analysis.

Please provide a response to the above information requests at your earliest convenience. Upon receipt of the required information, the BLM will determine whether or not the Plan of Operations Modification is complete.

Once the Plan Modification is determined complete, the BLM will solicit public comment on the Modification under 43 CFR 3809.411(c), either separate from or as a part of the environmental review process required by the National Environmental Policy Act. Soliciting public comment must occur before making decision on the Plan of Operations according to 43 CFR 3809.411(d).

If you have any questions, please contact Rebecca Doolittle in person at 82 East Dogwood, Moab, Utah, 84532 or by telephone at (435) 259-2141.

Sincerely,

/s/ Jeffrey R. Smith
